Re: Proposed Tullaghmore Wind Farm in the townlands of Derrybeg, Tawnaghbeg and Tullaghmore in Co. Galway

Dear Resident,

As communicated via previous project correspondence, project design webinars and an in-person project event, We, EMPower, are actively exploring the potential for a wind farm development opportunity in the Tullaghmore area of Co. Galway.

The proposed Tullaghmore project's Study Area is located approximately nine kilometres west of Oughterard and six kilometres east of Maam Cross. You will find more information on this proposed project, and on EMPower, at www.tullaghmorewindfarm.ie. Alternatively, please visit the projects dedicated online Community Consultation Exhibition available at www.innovision.ie/Tullaghmore to interact with much more project design information including project layout maps, and visual representations of the final design for the proposed project as it would look if built out.

The proposed project is now at a stage where all the environmental assessment survey data has been collated and compiled into the final Environmental Impact Assessment Report. The enclosed Newsletter sets out an overview of the final project proposal.

The planning submission will include the project's Environmental Impact Assessment Report and, pending final reviews, will be submitted in November/December 2022 to Galway County Council.

You can view recordings of all the previous project design webinars from the project website www.tullaghmorewindfarm.ie

Also you can view and download all of the previous project newsletters, communications and FAQ's from the dedicated project's website www.tullaghmorewindfarm.ie.

We will continue to make every effort to ensure that we provide you with all the information you need to fully understand the details of this proposed project as it progresses. If you would like to discuss this project with a member of the project design team please contact us via any of the contact details listed below and we will arrange a time that suits you.

We welcome the opportunity to talk through the proposed project with you so please do contact the Project Team, using any of the contact details below, if there are any areas of the proposed project you wish to discuss further.

Thank you very much for taking the time to read this correspondence.

Yours Sincerely

A handwritten signature in blue ink, appearing to read 'Diarmuid Twomey', written over a horizontal line.

Diarmuid Twomey,
EMPower Managing Director
